## USA – Creating a Synoptic Profile

⇒ Create a synoptic profile of the USA in bullet points using an atlas and the facts given in the table below.

A **synoptic profile** is the progression of the altitude profile. It contains additional information, listed in a table underneath the altitude profile. It can include geophysical (climate) or human-caused factors (focus on economy).

	Pacific Mountain System	Intramontane Basins	Rocky Mountains	Great Plains	Appalachians Mountains	Atlantic Coastal Plain
<b>Climate / Vegetation</b>						
<b>Population</b>						
<b>Economic Structure</b>
